

Book Record Management | Set Urls

URLs to Handle

- Localhost:8000/BRMapp/view-books
- Localhost:8000/BRMapp/edit-book
- Localhost:8000/BRMapp/delete-book
- Localhost:8000/BRMapp/search-book
- Localhost:8000/BRMapp/new-book
- Localhost:8000/BRMapp/Add
- Localhost:8000/BRMapp/Edit
- Localhost:8000/BRMapp/Search

Setting urls

- In urls.py of firstproject folder:

```
from django.contrib import admin
from django.urls import path
from django.conf.urls import url, include

urlpatterns = [

    url('BRMapp/',include('BRMapp.urls')),
    path('admin/', admin.site.urls),
]
```

In urls.py of BRMapp:

```
from django.conf.urls import url
from BRMapp import views

urlpatterns =[
    url('view-books',views.viewBooks),
    url('edit-book',views.editBook),
    url('delete-book',views.deleteBook),
    url('search-book',views.searchBook),
    url('new-book',views.newBook),
    url(r'^add',views.add),
    url('search',views.search),
    url('edit',views.edit),
    url('login',views.userLogin),
    url('logout',views.userLogout),
]
```
